No. Admn.I/4(2)/66—On transfer, Shri K. Sharan relinquished charge of the office of the Asstt. Labour Commissioner (C), Jharsuguda, on the forenoon of the 23rd February, 1966 and assumed charge of the office of the Asstt. Labour Commissioner (C), Dhanbad, on the forenoon of the 3rd March, 1966.

P. C. SANYAL

Asstt. Labour Commissioner (Admn.)

## Labour Bureau

## Department of Labour &amp; Employment

Slmtla-4, the 1st April 1966

No. 6/2/66-CPI—The final figure of all-India Average Consumer Price Index Number for Working Class (General) on Base: 1949=100 for the month of February, 1966 was 174 (one hundred and seventyfour).

K. C. SEAL

Director

## MINISTRY OF COMMERCE

## Office of the Textile Commissioner

Bombay-1, the 24th March 1966

No. 5(3)/63-Control/CLB-II—In exercise of the powers conferred on me by sub-clause (a) of clause 10 of the Woollen Textiles (Production and Distribution) Control Order, 1962, and in supersession of the Textile Commissioner's Notification No. 5(3)/63-Control dated the 16th March, 1964, I hereby direct that every person included in the Schedule appended hereto shall furnish to the Textile Commissioner, Economic Branch, New Central Government Offices Building, New Marine Lines, Bombay-1, true and accurate information regarding :—

- (1) Actual stoppage of work, whether partial or full;
- (2) Anticipated stoppage of work, full or partial; and
- (3) Whether such stoppage is due to :—
  - (a) strike by labour;
  - (b) lock-out by management;
  - (c) lay-off by management; or
  - (d) for any other reason.

2. And I further direct that such information shall be communicated telegraphically, immediately after stoppage or immediately on receipt of information regarding anticipated stoppage, and the telegram should be followed by a letter giving detailed information in the following form, namely :—

- (i) Date and time of anticipated/actual stoppage;
- (ii) Section or shift affected;
- (iii) Reasons for the stoppage;
- (iv) Number of each kind of machine rendered idle;
- (v) Workers likely to be affected;
  - (a) Permanent,
  - (b) Badli and
  - (c) Temporary.
- (vi) Anticipated daily loss in production;
- (vii) Steps proposed to be taken for resumption of working of the section/shift affected;
- (viii) Other relevant details, if any.

## SCHEDULE

- (1) Manufacturer of Woollen cloth and yarn registered or licensed under the Industries (Development and Regulation) Act, 1951;
- (2) Woollen combing unit;
- (3) Powerloom unit having five or more looms;
- (4) Woollen spinning unit; and
- (5) Felt manufacturer.

B. V. VORA

Joint Textile Commissioner

Bombay-1, the 26th March 1966

No. CER/1/66—In exercise of the powers conferred on me by Clause 22 of the Cotton Textiles (Control) Order, 1948, I hereby direct that the following further amendment shall be made in the Textile Commissioner's Notification No. S.O. 3656, dated the 13th October, 1964, namely :—

In the said Notification :—

I. In paragraph 1,

- (1) in Sub-paragraph (ii), after the second proviso, the following proviso shall be added, namely :—  
“Provided further that the maximum ex-factory price of “Dhoti”, “Saree”, “Longcloth”, “Shirting”, and “Drill” produced by a producer having a spinning plant and packed after the 31st March, 1966, shall be as calculated in accordance with the formulae contained in Schedule AIII annexed hereto.”
- (2) For sub-paragraph (iii) the following sub-paragraph shall be substituted, namely :—  
“(iii) the maximum retail price of the aforesaid varieties of cloth packed till the 31st March 1966 (inclusive) shall be 18 per cent over the ex-factory price and packed after the 31st March 1966 shall be 20 per cent over the ex-factory price.”

II. In paragraph 2, after the second proviso, the following proviso shall be added, namely :—

"Provided further that where any such cloth is subjected, after sale, after the 31st March, 1966, to further processing by a processor, the maximum ex-factory price of such cloth processed by the

processor, shall be the maximum ex-factory price stamped on the cloth, increased by the processing charges specified in Part III of Schedule AIII annexed hereto."

III. In the Schedule, after Schedule AII, Schedule AIII shall be inserted.

### SCHEDULE "A-III"

#### PART I

#### MAXIMUM EX-FACTORY PRICES OF CLOTH

*Schedule of Realisation Multipliers for cloth falling under controlled categories packed by mills after the 31st March, 1966*

Group	Quality (Basic)				Permissible count variation for linking with each group		Realisation Multiplier in Paise per kg. of yarn woven	Variation in Realisation Multiplier per count of yarn.
	Count of warp	Count of weft	Reed Nos	Pick Nos				
					warp counts	weft counts		
1	2	3	4	5	6	7	8	9
<i>Indian Cotton</i>								
I Carded	14s	10s	40	40	13s—16s	9s—12s	601	4
II Carded	14s	14s	44	44	13s—16s	13s—20s	656	4
III Carded	20s	20s	52	52	20s—22s	13s—24s	752	4
IV Carded	22s	30s	54	54	20s—22s	25s—30s	845	4
V Carded	30s	30s	56	56	28s—30s	25s—30s	925	7
VI Carded	30s	40s	62	62	28s—33s	34s—40s	1,009	7
<i>Foreign Cotton</i>								
VII Carded	40s	40s	66	66	35s—44s	35s—44s	1,383	9
VIII Carded	44s	50s	68	68	40s—44s	45s—54s	1,517	9
IX Carded	44s	60s	70	70	40s—44s	55s—60s	1,562	9
X Carded	50s	60s	72	72	47s—52s	55s—60s	1,768	9
XI Combed	60s	80s	74	74	55s—64s	64s—82s	2,274	9
XII Combed	70s	90s	78	78	65s—75s	84s—95s	2,634	11
XIII Combed	80s	100s	82	82	76s—84s	90s—100s	2,897	11

**N.B.:**— This Schedule gives the constructional particulars in English count. (i) Mills have since been asked to switch over to the English count. Where, however, mills use yarn in stock spun under the French count system, the French counts of yarn used in the warp and weft of the cloth should be indicated in the 'C' Form with the corresponding English count rounded off to the nearest quarter count in brackets; 0.125 and below to be omitted; 0.126 and up to 0.375 to be taken as 0.25; 0.376 and up to 0.625 to be taken as 0.50; 0.626 and up to 0.875 to be taken as 0.75 and 0.876 and up to 0.999 to be taken as 1.00. The weight of yarn in the cloth should be calculated on the basis of French count in the case of mills who have switched over to the French count system.

(ii) The adjustment for count variation for Mills adopting the French count system shall be made by taking the total of warp and weft counts as rounded off in the manner specified in (i) above. From the total figure as arrived at fractions shall be omitted.

#### PART II

#### ADJUSTMENTS TO THE BASIC GREY REALISATION MULTIPLIER

##### I. Cotton Adjustments

1. **Group I**—For manufacture of qualities with warp counts 9s to 12s in Group I reduce the multiplier by 10 paise per kg. of total yarn woven, with the count variation applicable to the group.

2. **Group III**—For manufacture of qualities with 17s to 19s warp counts reduce the multiplier for Group III by 8 paise per kg. of total yarn woven, with the count variation applicable to the Group.

3. **Groups IV and V**—(a) Qualities with warp counts 23s to 27s will be linked to Group IV with an increase in the multiplier by 38 paise per kg. of yarn for warp only, with the count variation applicable to the group.

(b) Qualities with weft counts 31s to 33s will be linked to either Group IV or Group V according to the permissible warp counts. An increase of 38 paise per kg. of weft yarn woven in the fabric will be allowed over the multiplier for Group IV if the quality is to be linked to Group IV and over the multiplier for Group V if the quality is to be linked to Group V with the count variation applicable to the relevant group.

(c) Qualities with warp counts 23s to 27s and weft counts 31s to 33s will be linked to Group IV and an increase of 38 paise per kg. of yarn woven will be permissible on the weight of both warp and weft yarn over the multiplier of Group IV, with the count variation applicable to the group.

4. **Group VI**—(a) Qualities with warp counts 34s and above from Indian cotton will be linked to Group VI and an increase of 128 paise per kg. of warp yarn over the multiplier for Group VI is permissible on the weight of warp yarn only, with the count variation applicable to the group.

(b) Qualities with weft counts 41s and above from Indian cotton will be linked to Group VI and an increase of 128 paise per kg. of weft yarn over the multiplier for Group VI is permissible on the weight of the weft yarn only, with the count variation applicable to the group.

(c) Qualities with warp counts 34s and above and weft counts 41s and above from Indian cotton will be linked to Group VI and the increase of 128 paise per kg. of yarn woven over the multiplier for Group VI will be permissible on the weight of both warp and weft yarn, with the count variation applicable to the group.

**Note :** The increase of 128 paise per kg. of yarn over the multiplier for Group VI specified in (a), (b) and (c) above is permissible only if the yarn is spun from Cambodia 'A' CO 2 varieties coming under Cambodia 'A' or types of cottons equivalent to or superior to these types.

(d) For use of I.S.C. 67 cotton in controlled cloth, mills should apply with full details to the Textile Commissioner (Price Control Branch) for the necessary allowance.

5. **Group XIII**—Qualities finer than permissible count ranges for Group XIII manufactured out of superior foreign cotton will be linked to Group XIII. An allowance of 109 paise per kg. of yarn woven will be permissible on the basic grey realisation multiplier. Suitable adjustments for count variation at 11 paise per count per kg. and also for reed/pick variations will have to be done in the usual manner after adding the cotton allowance specified in this para.

##### 6. Foreign Cotton :

In cases where foreign cotton is to be used for warp linked to Group V and warp and weft counts linked to Group VI, mills should apply to the Textile Commissioner with full details for fixation of prices. The words "warp and weft" in Group VI would cover warp and weft together or either warp or weft.

## (i) 100% Foreign Cotton :

The cotton allowance will be admissible only for the use of 100 per cent foreign cotton. Foreign 'B' cotton (cotton with staple length below 1-1/16") will not qualify for any allowance. Mills should indicate the types of cotton used and the fabrics made with their constructional particulars and serial numbers which they propose to stamp on the fabrics. On receipt of these details, the permissible cotton allowance will be intimated to the mills concerned.

## (ii) Mixture of Indian and Foreign Cotton :

(a) No allowance is permissible for mixture of Indian cotton with foreign cotton for cloth qualities linked to Group V.

(b) Mixture of foreign cotton (other than Foreign 'B' cotton—cotton with staple length below 1-1/16") with Indian cotton for cloth qualities linked to Group VI will qualify for the allowance of 128 paise per kg. of such yarn used in the fabric (warp or weft or both) subject to the conditions prescribed in 4(a), (b) and (c) above and the note thereunder. It should be noted that no allowance would be admissible even if the cloth is linked to Group VI if the warp count is less than 34s and weft count is less than 41s or where the cotton used is not equivalent to or superior to the Cambodia 'A' and CO 2 varieties coming under Cambodia 'A'.

(iii) Mills using a mixture of Indian cotton CO 2 and/or Cambodia 'A' with foreign cotton, other than foreign 'B', for all fabrics having warp counts of 34s and above and weft counts of 41s and above, even though the permissible counts might relate to Groups higher than Group VI, will link the fabrics to Group VI only taking the cotton allowance of 128 paise per kg. over the multiplier for Group VI plus the admissible count, reed and pick variations. Here also foreign 'B' cotton (cotton with staple length below 1-1/16") will not be treated as equal to or superior to the CO 2 or Cambodia 'A' cotton. Mills should give the details of the cotton used for the mixture in the 'C' form. Mills should keep proper records to show the types of foreign cottons used for inspection.

## 7. Re-wound warp yarn used as weft in fabrics :

On the question as to whether the case of 36s warp yarn which is linked to Group VI and where the yarn is spun from Cambodia 'A', CO 2 and better types of cotton, if such 36s warp yarn is re-wound and used as weft in the same fabric, the cotton allowance prescribed for warp in item 4 Part II of the Schedule of multiplier will be permitted in respect of such 36s re-wound warp yarn used as weft in the fabrics, this allowance is permissible only if the weft count is 41s and above and since in this case the weft count is only 36s, the cotton allowance will not be permissible. This is an illustration and will apply in all similar cases.

## II. Combing Allowance

(a) No allowance for combing of cotton for counts below 30s warp or weft will be permitted.

(b) Fabrics linked to Groups V and VI of counts 30s and above will be eligible for combing allowance at 55 Paise per kg. of combed yarn used in the fabric, provided that the following conditions are fulfilled :—

- (1) The minimum comber loss in respect of the counts specified above shall be 10 per cent.
- (2) The minimum reed, in the case of longcloth and shirting shall be 72.
- (3) The minimum reed in the case of dhoties and sarees shall be 44.
- (4) Both the warp yarn and the weft yarn in the fabric should be combed yarn.

Note : (i) For claiming the Combing Allowance the count should be 30s and above both in warp and weft.

- (ii) Where for the body of the fabric no combing allowance is admissible either because carded yarn is used or combed yarn is not used both in warp and weft or the minimum count and/or reed specification is not complied with, or the minimum comber loss is not obtained, border yarn also will not be entitled to any combing allowance even if it is combed yarn.

(c) Fabrics linked to Groups VII, VIII and IX in Part I of Schedule "A-III" will be eligible for combing allowance at 85 paise per kg. of combed yarn used in the fabric either in the warp or weft or both as the case may be. For fabrics linked to Group X the combing allowance will be 105 Paise per kg. of combed yarn used in the fabric in the warp or weft or both as the case may be. These allowances are admissible provided the minimum comber loss is 14 per cent.

(d) The Multipliers in respect of Groups XI and above are based on combed cotton. If carded yarn qualities are used in fabrics linked to Groups XI and above in warp or weft or both, a reduction of 117 paise per kg. of carded yarn used in the fabric should be effected in the Multipliers. Mills requiring price fixation for qualities manufactured with carded yarn and linked to Groups XI and above should approach the Textile Commissioner.

## III. Method of Linking

1. All varieties of cloth falling under controlled categories manufactured by mills shall be linked with one or the other groups mentioned in Part I of Schedule "A-III".

2. The linking shall be made according to the counts of warp and weft falling within the permissible count variation specified in columns 6 and 7 of Part I of Schedule "A-III". Where the warp and weft counts of a fabric fall within the permissible range of warp and weft counts in a group, the fabric should be linked to that group only.

3. (i) The basic adjustment between counts for cloth in each combination of counts shall be arrived at for the composite counts and is to be applied to the total weight of yarn in warp and weft only without any addition. In other words, actual yarn weight in both warp and weft of any cloth shall be worked out on the counts of yarn used in the cloth.

(ii) Calculation on fractions of counts shall not be permitted except as specified in Notes under Part I of Schedule "A-III".

(iii) Weight of weft should be calculated on the actual loom state length and not on the finished length of the piece.

(iv) Wherever the count of weft is coarser than the count of warp separate linking for warp and weft with appropriate groups of multipliers will be permitted provided the weft is spun from appropriate cotton and provided also that such counts of weft are selected from the next lower group.

(v) Wherever the count of weft is finer than the count of warp even beyond the counts of weft permitted under particular group in Part I of the Schedule "A-III", separate linking for warp and weft with appropriate group of multiplier will be permitted provided the weft is spun from appropriate cotton of the higher group and the minimum standard for picks is approved by the Textile Commissioner and provided further that such counts of weft are selected from a higher group immediately next.

Note : (i) There are certain warp and weft counts which overlap in more than one group. For instance, weft counts 13s—20s will come under Group II and also in Group III. Here the Group to which the warp of the cloth is linked will determine the group to which the weft should be linked. For instance in the case of cloth having 18s warp and 14s weft, the warp count 18s will be linked to Group No. III in accordance with item No. 2 of 'Cotton Adjustments'—Part II of Schedule "A-III". The weft count of 14s although occurring in Groups II and III will be linked to Group No. III only as the warp is linked to that group.

(ii) Double linking : There are certain qualities which will permit linking of warp and weft to separate groups. For instance a quality of 12s warp and 16s weft 44 reed and 40 picks will be linked to Group I for warp and Group II for weft. In such cases of separate linking, the calculation of the price will be as under :—

(a) 12s warp will be linked to Group I as under :—

Standard 14s × 10s × 40 reed × 40 picks.

Quality 12s × 12s × 44 reed × 40 picks.

- (b) 16s weft will be linked to Group II as under :—

Standard 14s × 14s × 44 reed × 44 picks.

Quality 16s × 16s × 44 reed × 40 picks.

Adjustment for counts and reed and picks will be made for the separate groupings and the final multiplier for warp will be multiplied by the warp weight, and final multiplier for weft will be multiplied by the weft weight to arrive at the price of the piece.

- (iii) It will be permissible to deviate from the prescription given in (iv) and (v) above and take the weft count from a group even lower than the next lower group or higher than the next higher group. For example a quality of 18s warp and 12s weft will be linked to Group III for warp and Group I for weft. This linking will, however, be subject to the observance of production control restrictions.

4. The basic realisation multiplier shall be adjusted wherever necessary, in the following manner :—

- (a) Adjustment for cotton (cotton allowance), see Part II of Schedule "A-III".

- (b) Combing allowance, see Part II of Schedule "A-III".

- (c) *Narrow width allowance* : Part I of Schedule "A-III" applies fairly uniformly for all grey qualities of 76 cms and over and for all bleached, dyed and finished qualities of width 71 cms and over. For widths lower than 76 cms grey or 71 cms bleached, dyed or finished the multipliers given in the above schedule shall be increased as under :

- (i) Groups I to VI—18 Paise per kg of yarn woven.

- (ii) Groups VII and above—16 Paise per kg of yarn woven.

(Splits should be excluded in all cases).

N.B.: In respect of grey calendered sorts, the narrow width allowance has reference to the loom state width and will be allowed only if the width of the cloth is below 76 cms, in the loom state.

- (d) *Adjustment for count variation*—see column 9 of Part I of Schedule "A-III".

- (e) (i) *Adjustment for variation in reed* : For every upward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule "A-III" after adjustment as above shall be increased by half per cent. In addition, in the case of qualities linked to Groups I and II and falling under the 'coarse' category of fabric for every downward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule "A-III" after adjustment as above shall be decreased by half per cent.

- (ii) *Variation of Picks* : For every upward or downward variation of 4 picks and multiples of four picks, the multiplier specified in column 8 of Part I of Schedule "A-III" after adjustment as above, shall be increased or decreased by one per cent.

Note: In calculating the percentage adjustments under e(i) and e(ii) above multiples of four only should be adopted, fractions thereof being omitted. The resultant percentage adjustment involving both the reed and pick variation should first be calculated and then applied over the multiplier and not separately for reed and for pick variations.

- (f) For all qualities manufactured out of double or more twisted yarn, the appropriate multiplier after adjusting the count, reed and pick allowances shall be decreased by 5 per cent (with a minimum of 35 paise per kg. of yarn woven) in case both warp and weft yarn are twisted and by 2½ per cent (with a minimum of 18 paise per kg. of yarn woven) in case either warp or weft yarn is twisted.

- (g) The following compensatory allowance for grey cloth is permitted to these mills only who obtain not less than 75 per cent of their motive power by

burning coal and/or fuel oil in their own boilers. The allowance is also subject to the conditions stipulated below :—

- (i) The allowance shall be equivalent to 2½ per cent of the Realisation Multiplier after the same has been adjusted wherever necessary in accordance with (a) to (f) above.

- (ii) The allowance shall apply to the weight of grey yarn only from which the cloth is woven. Any scoured, bleached, dyed, printed or mercerised yarn used in the manufacture of cloth shall be excluded from this allowance.

- (iii) For the purpose of ascertaining whether a mill has obtained not less than 75 per cent of their motive power by burning coal and/or fuel oil in their own boilers, the average of the consumption for the previous six monthly period (January to June and July to December) should be taken into account.

Note: (i) Mills who obtain electric power from Electric Supply undertakings, where coal and/or fuel oil is consumed for generation of power, will not be entitled to claim this allowance.

- (ii) If grey fabric undergoes subsequent processing such as bleaching, dyeing etc., this 2½ per cent increase will not be applicable on the bleaching, dyeing etc. charges.

#### 5. Dobby allowance for borders in dhoties and sarees :

	Upto 12 shafts	From 13 shafts to 32 shafts	From 33 shafts & above
	(Paise per kg.)		
(a) For warp counts below 36s .. .. .	35	70	105
(b) For warp counts 36s and above .. .. .	71	142	213

#### 6. Jacquard allowance :—

Warp counts	Paise per Kg.			
	120 needles and less	Above 120 and upto 240 needles	Over 240 and upto 400 needles	Above 490 needles
16s and below ..	71	88	106	121
17s to 34s ..	141	176	212	247
35s to 57s ..	207	260	313	364
58s and above ..	272	342	410	478

Note : The allowances for Dobby and Jacquard work specified in items 5 and 6 above are to be added on the basis of weight of yarn in warp and border, exclusive of weight of weft yarn. These charges would be permitted for the minimum number of Dobby shafts or Jacquard needles required for the re-production of the designs.

#### 7. Drop-box allowance :—

Warp counts	Charges in Paise per kg. of yarn woven	
	2 and 3 shuttles	4 shuttles and above
16s and below .. .. .	97	121
17s to 34s .. .. .	190	238
35s to 57s .. .. .	278	346
58s and above .. .. .	366	456

Note : The Drop-box allowance is to be taken on the total weight of yarn warp and weft in the piece. This allowance is permissible only for the minimum number of shuttles required for the reproduction of the pattern.

#### 8. Charges for use of doubled yarn in the border of dhoties and sarees :

(i) For the purpose of linking, border yarn will be treated as distinct from the body of the fabric and the border yarn in all cases will be linked separately to the appropriate group applicable to the basic single count of the border yarn. For the purpose of adjustment for count variation the count of weft will be assumed to be the same count as the basic single count of the border yarn. The

weight of the border yarn will be multiplied by the realisation multiplier of the appropriate group for its basic single count. In addition the doubling charges as under will be permitted.

Count	Doubling charges in Paise per kg of doubled yarn used in border
10s	44
20s	49
30s	71
40s	97
44s	104
60s	126
80s	165
100s	207
120s	275

(ii) The following extra charges are to be added for the intermediate counts :—

Any count between 2/10s and 2/20s—0.50 Paise per count per kg.

Any count between 2/20s and 2/30s—1.20 Paise per count per kg.

Any count between 2/30s and 2/40s—2.60 Paise per count per kg.

Any count between 2/40s and 2/44s—1.75 Paise per count per kg.

Any count between 2/44s and 2/60s—1.40 Paise per count per kg.

Any count between 2/60s and 2/80s—2.00 Paise per count per kg.

Any count between 2/80s and 2/100s—2.10 Paise per count per kg.

Any count between 2/100s and 2/120s—3.40 Paise per count per kg.

(iii) For use of processed doubled yarn in the above qualities, the charges prescribed in item 7 of Part III of Schedule "A-III" for Processing charges will apply in addition.

**Note :** In case single yarn is used in borders, the border yarn will be linked as indicated in Item '8' on the basis of its basic single count. In addition, 50% of the difference between the multiplier rate for the warp yarn of the fabric and the multiplier rate for the border yarn will be allowed on the weight of the border yarn *provided* that the yarn in the border has a minimum lea-strength of not less than 1½ times the lea-strength of the warp yarn in the fabric. The mills will be required to certify the lea-strength of the warp yarn and the lea-strength of the border yarn for this purpose in the 'C' form. Such declared strength will be subject to inspections and check from the enforcement staff. Mills should also keep records of the lea-strength of the warp yarn and the border yarn. The grant of doubling charges will not arise.

(iv) In addition to the above, the following compensatory allowance may be added to the final prices of dhooties and sarees for loss of production :—

(i) 3 Paise per metre in the case of dhooties and sarees manufactured from 14s warp and over and linked to Groups upto and including Group VI.

(ii) 5 Paise per metre in the case of dhooties and sarees the warp counts of which are linked to Groups VII and above.

**Note:** (i) Dyeing charges for the use of coloured yarn in the headings of dhooties and sarees are not permitted.

(ii) No compensatory allowance as for sarees will be admissible in the case of printed Mulls and Voiles and Dorias, which are offered as sarees under the Controlled Category.

9. The doubling charges specified in item 8(i), (ii) and (iii) will apply to other qualities where doubled yarn has been used whether as warp and/or weft.

#### 10. Grandrelle Shirtings :

For grandrelle shirtings accepted as controlled cloth the following adjustments will be necessary in calculating prices :—

- While effecting the adjustments from the basic realisation multiplier the deduction prescribed in the Schedule "A-III" under item 4(f) in Part III 'Method of Linking' for the use of double or more twisted yarn will *not* be necessary.
- Doubling charges prescribed under item 8 in Part III 'Method of Linking' of Schedule "A-III" will *not* be admissible.
- Dyeing charges for the processed yarn used in the fabrics having Grandrelle yarn will have to be worked out by adopting the dyeing charges prescribed in the Schedule "A-III" under item 7 of Part III of Schedule (Schedule of Processing Charges).

#### 11. Yarn in selvages used in cloths other than Patti Mulls and Voiles :—

Doubled or single yarn, if any, used in selvages of cloth other than Patti Mulls and Voiles should only be treated as falling within the warp yarn used in the cloth and will not be permitted to be taken as border yarn and will not be allowed the special charges for border yarn.

#### 12. Extra allowance for Mulls and Voiles :

For bleached, dyed or printed mulls and voiles of 44" (112 cms) width and more and conforming to the following specifications, an additional allowance will be permitted as indicated against the respective qualities :—

- Linked to Group VII to IX with minimum 48 Reed and 44 Picks. 4 Paise per metre.
- Linked to Group X and above with minimum 56 reed and 48 Picks. 5 Paise per metre.

#### 13. Drills.

(a) Allowance for production of drills of superior specifications :—

The following allowances will be admissible in the case of drills which conform to or are better than the specifications prescribed by the Director General of Supplies and Disposals for Defence material.

- A drill allowance of 6 Paise per kg. of yarn woven in the fabric. This allowance is applicable both on warp and weft.
- Cotton allowance at 24 Paise per kg. in the case of drills manufactured with 19s warp and below, and at 38 Paise per kg. in the case of warp counts above 19s. This cotton allowance is applicable only on the weight of warp in the fabric.

**Note :** While submitting the 'C' forms in respect of drills where the above allowances are claimed, the mills should indicate clearly the specification number to which the drill conforms and also the weight in kg. per square metre of the drills. The mill should also endorse a certificate that the drills to be packed for civil production will be strictly in accordance with such specifications.

(b) Fixation of price for Mineral Khaki Drill—Projects :—

- In respect of Mineral Khaki Dyed Drill produced for Defence and rejected by D.G.S. & D. 6½% below the contract price may be charged and stamped;
- In respect of Mineral Khaki Dyed Drill rejected by mills themselves, the stamping should be 10% below the contract price.

Where, however, the prices arrived at in the above manner are in excess of the prices calculated on the application of Multipliers without the allowance permissible for D.G.S. & D. specifications, mills should charge and stamp only the lower of the two prices viz. the prices calculated on the application of the Multipliers without the allowances permissible for D.G.S. & D. specifications.

#### 14. (a) Realisation for use of Rayon (Artificial Silk) yarn in cotton cloth :—

For use of artificial silk yarn used in saree borders and as weft for the ground, the following charges will be permissible.

The artsilk yarn will have to be linked to the appropriate count group equivalent to the English Cotton count and the multiplier of that group without any adjustment for cotton shall be applied over the weight of the yarn. In addition only the following allowances to compensate for the differences in prices between artsilk yarn (Rayon yarn) and its corresponding cotton yarn count which has been allowed in the multiplier will be permitted :—

Artsilk yarn count	Corresponding cotton count in English system	Additional charges in paise per kg. of artsilk yarn woven.
150 D .. .. .	(35s)	756
2/150D .. .. .	(2/35s)	837
120 D .. .. .	(44s)	427
2/120D .. .. .	(2/44s)	531

(b) For other Deniers of Artsilk yarn and for the use of staple fibre yarn in fabrics mills may apply to the Textile Commissioner for price fixation giving details of manufacturing particulars.

15. Processing charges will be permissible in accordance with Part III of Schedule "A-III".

#### 16. Allowance on account of seconds, fents, rags etc. :

The final price as calculated in accordance with the Schedule of Multipliers specified, will be increased as under :—

- (i) On grey cloth .. .. 1.75 per cent
- (ii) On processed cloth other than printed sorts .. .. 2.75 per cent
- (iii) On printed sorts .. .. 3.75 per cent

17. The Textile Commissioner, if he is satisfied that due to the nature of machinery and equipment in the undertaking a producer having a spinning plant is not able to produce cloth other than dhories and sarees, may, in respect of sarees having a border of width exceeding 3.81 cms. but not exceeding 6.35 cms. and packed in excess of the quantity of dhori/saree, long-cloth, shirting and Drill taken together, as prescribed by the Textile Commissioner and on an application made to him in this behalf, specify a price exceeding the ex-factory price specified in Schedule "A-III" by 2½ per cent.

18. Rounding off of the ex-factory and retails prices should be to the nearest paise, 0.51 paise and above taken as one paise and 0.50 and below omitted.

### PART III

#### SCHEDULE OF PROCESSING CHARGES

The weight of grey fabrics wherever referred to in the Schedule should be calculated by taking the actual total weight of warp and weft yarns excluding the weight of sizing materials used in the cloth without any addition.

Charges for processes which are not included in the Schedule will be allowed to the mills only on application and subject to such conditions as may be prescribed by the Textile Commissioner for the purpose.

(1) **Bleaching charges :** Bleaching will be deemed to include Cropping/Shearing, Singeing, Desizing, Kier-boiling, Chemicking, Souring, Antichloring, Scutching, Water-Mangling, Washing and Drying. Alternative systems of bleaching such as J. Box-bleaching boiling with Hydrogen Peroxide, Sodium Chloride etc., upto the stage of final drying will also be covered by the above definition.

*Price element for bleaching (market bleached)  
per kg. of grey fabrics*

	Paise per kg.
(i) for unmercerised bleached sorts not containing any coloured yarn (not to be printed or dyed) .. .. .	53
(ii) for unmercerised bleached sorts containing coloured yarn (not to be printed or dyed) .. .. .	55
(iii) for bleached and mercerised sorts (not to be printed or dyed) .. .. .	70
(iv) for all bleached sorts for printing .. .. .	51

*Note :* (1) No sparate bleaching charges are admissible for dyed fabrics.

- (a) Mills should specifically certify in the 'C' forms that the bleaching is done both before and after mercerising and will continue to be done on the fabric produced, for item (iii) above.
- (b) In case of mercerised sorts which are only bleached once *and not twice* the charge admissible will be 53 paise or 55 paise as the case may be as mentioned in the Schedule of bleaching charges.
- (c) (i) In case of bleached sorts containing 100 per cent coloured yarn (in both warp and weft), only half of the bleaching charges prescribed above will be allowed.  
(ii) In case of sorts partly woven with grey and partly with coloured yarn and subsequently bleached, the full bleaching charges prescribed above will be allowed.

#### (2) Mercerising :

'Mercerising' will be deemed to include the passage of fabrics through a mercerising range with caustic soda of minimum 20 per cent strength with sufficient stretching both during and after such passage followed by washing, souring etc.

*Price element for mercerising of fabrics* *Paise per kg.*

- (i) For sorts upto 6 grey metres per kg. 53
- (ii) For sorts upto 10 grey metres per kg. 60
- (iii) For sorts over 10 grey metres per kg. 71

(3) **Dyeing charges :** Dyeing charges include charges for batching-up, prewetting, souring, bleaching, dyeing, airing, developing, oxidising, soaping, washing and drying.

*Price element for dyeing per kg. of grey fabrics* *Paise per kg.*

(A)		
(i) Vat dyes—		
(a) Light shade .. .. .		152
(b) Medium shade .. .. .		238
(c) Dark shade .. .. .		350
(d) Very dark shade .. .. .		500
(ii) Sulphur dyes—		
(a) Dark and very dark shade .. .. .		137
(b) Light and medium shade .. .. .		80
(iii) Naphthol dyed (including rapid fasts and rapidogens)		
(a) Consumption upto 1 per cent (on the weight of the fabric) .. .. .		160
(b) Consumption over 1 per cent (on the weight of the fabric) .. .. .		250
(iv) Mineral khaki .. .. .		110
(v) Aniline Black .. .. .		200
(vi) Hydron Blue (Deep shade) .. .. .		177
(vii) Pthalogene Blue .. .. .		450

*Note :* (i) In claiming dyeing charges for aniline black no additional charges are permissible for pre and/or post mercerising of cloth to be dyed.

(ii) The claim for dyeing charges for Pthalogene Blue is subject to the condition that the depth of the shade should not be less than 3 per cent of the dye used in the weight of the fabric.

(iii) For all other types of dyeing not specifically mentioned in the table, price elements specified for Vat dyes will be applicable provided that the fastness to washing and bleaching is of grade 3 or above under I.S.I. specifications.

(iv) The dyeing charges specified above include 'bleaching charges'.

(B) **Reactive Dyes :** Price element for dyeing per kg. of grey fabrics—

	Paise per kg.
Light shade .. .. .	110
Medium shade .. .. .	200
Dark shade .. .. .	300

*Note :* (i) The above charges include bleaching charges.

(ii) Use of reactive dyes is subject to the condition that the fastness to washing of the dyeing is of grade 3 and above when tested as per I.S.I. specifications or mechanical washing (severe).

(C) *Direct Dyeing* : Price element for dyeing per kg. of grey fabrics :—

	Paise Per kg.
Light shade .. .. .	73
Medium shade .. .. .	86
Dark shade .. .. .	112

Note : (i) No direct dyeing will be allowed in cases of manufacturers who have not been dyeing fabrics with direct dyes for substantial periods prior to October 1964. Applications with full particulars should be submitted to the concerned Regional Office of the Textile Commissioner for verification and issue of necessary certificates to undertake dyeing.

(ii) The date of commencement of manufacture of the fabric and the markets served should be indicated in the 'C' forms.

(iii) No separate bleaching charges will be permissible.

(4) *Printing Charges* :

'Printing' is deemed to include cropping/shearing/singeing batching, printing, drying, ageing/curing (where necessary) oxidising, developing, soaping, washing and drying. Napthol padding or developing with diazo salts for Azoic prints are also included in printing.

(A) Price element corresponding to printing charges upto and including two colours :—

Area of fabric covered by printing	Paise per square metre (finished) in all dyes/pigments except direct dyes.	
	Printing in all dyes/pigments except direct dyes	Where one of the colours is Khaddie (TiO <sub>2</sub> )
(i) Upto 10 per cent .. .. .	12	15
(ii) 11 per cent to 20 per cent .. .. .	25	29
(iii) 21 per cent to 40 per cent .. .. .	26	31
(iv) 41 per cent to 60 per cent .. .. .	28	33
(v) 61 per cent to 80 per cent .. .. .	30	36
(vi) 81 per cent and over .. .. .	32	38

Note : (a) Blotch prints will be deemed to be included (vi) above.

(b) (i) For each extra colour add 2.60 paise per sq. metre. For 'Resist' or 'Discharge' prints, 'white resists' and 'white discharges' are to be counted as colours. If the printing be on dyed fabric or is over-dyed, the colour of the dye is not to be taken into account for purposes of ascertaining the number of colours in printing. For this purpose, the number of colours should correspond to the number of printing rollers required.

(ii) In the case of Resist and Discharge prints the basic colour of the dyed fabric will not be treated as a colour for the purpose of ascertaining the number of colours. However, the dyeing charges will in case of resist and discharge printing be also admissible.

(c) (i) For fabric printed on the border (s) only, the price element corresponding to printed area covering upto 10 per cent should be taken. In case the area covered by the border (s) exceeds 10 per cent of the total area of the fabric than the price element appropriate for the area covered should apply.

(ii) For printing border (s) on other printed sorts—

(a) add 3.27 paise per sq. metre for printing border alongside one selvedge.

(b) add 5.21 paise per sq. metre for printing border alongside both selvedge.

N.B : Manufacturers will be entitled to claim this additional charge for printing borders in full only if they use separate rollers for printing the borders and also the depth of the prints in the border and in the body are different; otherwise only 50 per cent of the charges provided may be allowed for such printing of borders.

(c) When printing is done on both sides of the fabrics, 1½ times of the printing charges stipulated in (4) above will be allowed.

(d) In respect of fabrics printed in gold colours (either exclusive in gold colour or with other colours), 45 paise per sq. metre (finished) will be allowed, subject to the following conditions :—

(i) The area of the fabric covered by printing with gold colour alone should not be less than 5 per cent and prints should be fast to Soda Boiling and rubbing;

(ii) No additional charges for printing of borders and pallavs will be admissible;

(iii) If the area of the fabric covered by printing in Gold colour is below 5 per cent, no separate charges will be permissible and charges prescribed for roller printing only will be admissible; and

(iv) Printing charge of 45 paise per sq. metre (finished) will be applicable for printing fabrics upto two colours of which one colour should be in Gold colour printing. For printing of fabrics in more than two colours, of which one colour is 'Gold colour', the additional charges prescribed in the Schedule for extra colour printing over two colours will be applicable in respect of the number of colours over two.

(B) The price element per finished square metre for screen printing with six colours (screens) and above will be allowed at the following rates subject to a certificate from the mills that the designs in question cannot be printed on roller printing machines :

Percentage of area covered by printing	Paise per finished Sq. metre (for all widths).
(i) Upto and including 50 per cent as also for printing below six colours.	Same rate as for roller printing, as indicated in item 4(A).
(ii) 51 per cent and over	
(a) between 6 and 8 screens	69
(b) Above 8 screens	For every additional screen over 8 screens, an allowance of 5.21 paise per finished sq. metre is permitted.

Note : (i) Screen printing covering an area of up to and including 50 per cent of the fabric or irrespective of the area covered where the printing is below six colours, the rate will be the same as for roller printing.

(ii) Additional charges for printing of borders as provided in note (c) (ii) item IV(A) above may be claimed, if borders have been printed by using additional screens, and a certificate to this effect is recorded in the 'C' form.

(5) *Sanforizing charges* : Price element corresponding to sanforizing or other type of mechanical pre-shrinking—  
Sanforizing.....8 Paise per grey metre (for all widths.)

(6) *Finishing charges* : Finishing should include wherever necessary application of starch or gum or thermoplastic resins by mangling followed by stretching/stentering drying, damping, calendering, packing, etc.

Price element corresponding to finishing process—

	Paise per kg. of grey fabric
(i) For all processed sorts other than item in (ii) (a) and b), below .. .. .	49
(ii) (a) For bleached and back-filled sorts .. .. .	39
(b) For other processed and back-filled sorts .. .. .	24

**Note :** (i) If the grey sort is only damped/steamed and calendered, charges shall be 4 paise per kg. of grey fabric; for all grey sorts calendered and finished the over-all finishing charges including calendering, etc. will be restricted to 4 paise kg. calculated on the grey weight of the fabric.

(ii) For all other processes/operations involved in imparting special finishes, charges may be got approved by the Textile Commissioner.

**(7) Charges for processing yarn used in fabrics :**

	Price element for processed yarn in border	Price element for processed yarn other than in border and heading
	(1) Paise per kg.	(2) Paise per kg.
1. Bleaching charges .. .. .	71	71
2. Mercerising charges .. .. .	108	108
3. Dyeing charges—A. Vat dyes		
(i) Light shade .. .. .	234	209
(ii) Medium shade .. .. .	324	298
(iii) Dark shade .. .. .	484	460
(iv) Very dark shade .. .. .	593	569
B. Naphthol Dye		
(i) Up to 1 per cent of weight of yarn	265	240
(ii) Over 1 per cent of weight of yarn	364	340
C. Indo-carbon (CL or CLG) Fast black shade .. .. .	400	—
D. Sulphur black .. .. .	—	154
E. Cotton dyed yarn	Price element on the weight of cotton dyed yarn used in the fabric :—	
(i) Where 100 per cent cotton is dyed irrespective of the shade of the colour in the yarn.	209 paise per kg. of such cotton dyed yarn used in the fabric.	
(ii) Where such yarn is made out of a mixture of dyed and undyed cotton.	70 paise per kg. of such dyed yarn used in the fabric irrespective of the shade.	

**Note :** (i) Dyeing charges include pre-wetting/scouring, bleaching of yarn employed for dyeing.

(ii) Mercerising charges will be applicable only if the yarn has undergone mercerising treatment in a yarn mercerising machine with caustic soda of minimum 20 per cent strength under suitable tension and subsequent souring, washing etc.

(iii) No bleaching/mercerising charges will be allowed for bleached/mercerised yarn if such yarn is used either in border or in the body of the cloth which is piece bleached/mercerised after weaving.

(iv) The claim for dyeing charge for yarn in Indo-carbon is subject to the condition that the depth of the shade shall not be less than 7 per cent of the dye used on the weight of the yarn.

(v) In claiming dyeing charges for yarn in Sulphur black, mills should indicate the date of commencement of manufacture and the markets served by the sale of such fabrics.

(vi) In respect of dhoties and sarees having the same construction particulars but with a variety of borders utilising different shades of both Vat and Naphthol dyes and likewise Sucis and Shirtings containing coloured yarn having the same construction particulars but with a variety of different shades and types of dye used in the dyed yarn in the fabrics,

mills, for purpose of calculating the dyeing charges for yarn, may choose either of the following :

1. Prices may be stamped after calculating precisely the dyeing charges in respect of dyed yarn used in the border/fabrics according to the Schedule of Processing charges for dyes specified above.

2. Mills may stamp a uniform price adopting an average price of dyeing charges at 325 Paise per kg. for dyed yarn used in the borders of dhoties and/sarees and 285 Paise per kg. for dyed yarn used in Sucis and Shirtings.

**Sub-note :**

(i) Option shall be exercised one way or the other in respect of all varieties of dhoties and likewise for Sarees, Sucis and Shirtings. The declaration of choice once made cannot be changed during the pricing period. Any intention of change in succeeding period should be intimated in advance to the Textile Commissioner. The choice may be indicated in the 'C' form and calculation proceeded to be done accordingly.

(ii) Averaging of yarn dyeing charges will not be permissible for yarn dyed in Sulphur black and/or cotton dyed yarn where the prescribed rates only will apply.

(vii) If any other class of dyes other than mentioned above are employed in dyeing the yarn, the prices will be fixed by the Textile Commissioner on application.

(viii) For deciding the depth of the shade of the dyed yarn/fabrics, manufacturers should strictly adhere to the limiting depths of light, medium and dark shades in accordance with the shade cards and calculate the price of yarn/fabrics by applying the shade cards in deciding the relevant depth of the shades and the corresponding charges.

(ix) For grandrelle yarn, if only one end is coloured the price element should be calculated for the weight of the coloured end; if both ends are coloured in different shades, then, only an average of the price elements for the corresponding shades should be taken.

P. DORAISWAMY  
Textile Commissioner

Bombay-1, the 29th March 1966
